# Plantation Gardens

Herb Growers

Lynchburg, Virginia

1954-1955

## *Our New Catalog Makes Its Debut*

The PLANTATION GARDEN'S "Silent Salesman" of previous years did a pretty good job of persuasion considering its limited size and condensed contents. We Chalfins feel that it is now time for a change and offer this more complete descriptive herb catalog with the hope that it will considerably help the customer and this grower. Our present plan is to issue a major list of herb seed and plant stock only every two years. Supplementary offerings, on a separate sheet, shall be sent customers alternate years. These will be mailed January 1955, etc.; so clip it to this catalog for ready reference. Meanwhile please notify us if your address has changed. When requesting a catalog from a summer home, also give your winter address. We are constantly attempting to add exciting new varieties and enjoy passing these thrilling additions on to you so don't miss our announcements. The colored cover of tansy-yellow will aid you to keep track of your copy so try not to mislay it. Any replacements are made on the receipt of 25c to help cover costs.

PLEASE SAVE THIS COPY

### *An Invitation*

We welcome garden visitors. It has been very pleasant to meet and talk herbs to many of our customers from near and far. If in our vicinity, do try to stop in to see our gardens. We are located ten miles south of Lynchburg, just off of Highway 29. From the north: take 29 south until you see on left-hand side of road a sign marked "Bonnie's Marble Lake" and then watch for the NEXT side road on your RIGHT which is a Stop sign marked 622 and turn there. (We have a road sign at this point). Proceed down 622 for 1½ miles until you see our entrance sign on the LEFT. From the south: take first left turn from 29 after you pass the Knickerbocker Restaurant and Gas Station which is on left side of road approaching Lynchburg. We are near the hamlet of Lawyers.

Phone: Lynchburg 2-2969

## INTRODUCTION TO HERBS

The useful and delightful herbs are not only desirable plants for the herb garden but most of the varieties are equally effective in other types of gardens. Herbs provide unusual colors in both flowers and foliage. The textures and tones are exquisite. The wealth of scents and aromas are fascinating. Seeds for sowing, even when enclosed in packets, waft forth a spicy, fragrant essence.

We are herb seed specialists and because the climate of southern Virginia is favorable, our list of offerings is more complete than that from any other grower. Our seeds are gathered at the apex of ripeness thus assuring customers of excellent germination.

The herb plants we supply are fieldgrown roots except in a very few varieties which are safer wintered in coldframe. These are not frail pot-plants which must be pampered for months. Given reasonable care, our robust herbs will give immediate performance in the garden. They are a good investment. We dig all plants in the cool of the morning and ship the same noon; within a few hours the package is on its way to the customer. Our nursery is small and so each order is given personal attention.

All our plant material is quite hardy north of the Mason and Dixon line except Lemon Verbena, Pineapple Sage and sometimes, Rosemary; also the following which are tender in any but the mildest climate: Sweet Marjoram, Fringed Lavender, Peruvian Heliotrope and Scented Geraniums. All of these mentioned pot well for winter carryover or may be stored before frost in coldframes.

We are now standardizing our prices and grouping herbs in order to aid customers. We hope this simplified method will make mail-ordering easier. The heights given in descriptions are at mature growth in our locality; they will be more or will be less vigorous in other areas which do not coincide with our seasons. Likewise, the time of bloom is for similar sections but common sense addition or subtraction is not difficult. These notations will help customers in planning the placing of herbs in their gardens.

If any customer needs help in designing an herb garden we are able to render this service. Fees vary according to size and type of garden desired. Write us for an estimate, giving exposure, measurements and whether it is to be for pleasure or for use or a combination of both. Our prices are reasonable and when all material, both seeds and plants, are ordered from us you have the advantage of still lower rates. Cultural advice is supplied at very small additional cost.

Yours for pleasant hours with herbs,

Bruce and Eleanor Chalfin (Mr. and Mrs.)

PLANTATION GARDENS

# TERMS OF SALE

## *Read Carefully Before Ordering*

**SEEDS ARE POSTPAID** on SEED ORDERS of 50c or over. Smaller orders: enclose stamped addressed envelope. Shipped throughout the year with fresh seed supplied as current crop becomes ripe.

**PLANTS NOT POSTPAID:** See rates below:

Shipping dates: Spring, February 15th until June 1st.  
Fall, September 10th until December 1st.

Expenses involved in plant shipment have increased and we can not assume transportation charges. We are not responsible for shipment losses beyond our control. All material is carefully packed, each variety marked with wooden garden label, correctly named within reasonable tolerances. We reserve the right to limit quantity of any variety of stock to one customer. Order early because plant and seed stock is often in limited supply for spring sales after April 1st, otherwise, kindly suggest an alternate choice. We will not substitute without your authority.

### **RATES FOR POSTING OF ALL PLANTS:**

Virginia, Maryland, North Carolina (8 plants or less) 40c, extra plants, over 8, add 3c for each plant to above amount.

All other states East of the Miss. (8 plants or less) 60c, extra plants, over 8, add 4c for each plant to above amount.

West of the Miss. to Rockies (8 plants or less) 80c, extra plants, over 8, add 5c for each plant to above amount.

Beyond Rockies by special arrangement only (Nov.-Mar.)

For example: Order of 11 plants to N. C. is 40c plus 9c; total 49c  
or order of 14 plants to Ohio is 60c plus 24c; total 84c.

“Special Handling” recommended for distances over 200 miles; fee 25c.

**MAIL ORDERS:** List seeds and plants separately; add correct postage for plant transportation; enclose check, money-order, cash or stamps with all retail orders. (No checks under \$1.00). Please include return postage if requesting information.

PLANTATION GARDENS, Herb Growers,  
R. F. D. 2, Lynchburg, Virginia.

## ANNUAL AND BIENNIAL HERB SEED

### 15c A Packet

---

**AMBROSIA:** *Chenopodium Botrys*—18". Producing scented feathery plumes to use in potpourri and dried arrangements.
